Hi Chris,

It was nice meeting you and Stacey today. I'm glad we got a chance to talk briefly about Talley and the plans to construct a temporary well in the stormwater accumulation area. I know you mentioned that you would like to have further discussion with Wang regarding the 30 day window for the temporary well to generate water, as you thought this may not be a sufficient amount of time based on weather conditions. Based on my discussion with ADEQ, I believe the temporary well construction activities are scheduled to commence within the next month or so, pending issuance of the construction permit from Salt River. So, please let me know your thoughts on this issue once you've had time to discuss with Wang and/or other personnel. Also, if anything else comes up or if you have any concerns, please do not hesitate to contact me.

Have a great weekend!

Thanks,
Cynthia
